ATTORNEY MANAGEMENT SYSTEM

Date: 08/08/2022
Guide: Ms.Lisha Varghese

1. Project Overview?

   The attorney management system is used to automate all the activities of the clients and their advocates. With the increase in number of cases, it becomes difficult for Lawyer/Law firm to manage and monitor the case details manually so the main aim of this system is to help in that case not olny from the advocates view but from the view of client also.

2. To what extend the system is proposed for?

   The proposed system is to be implemented in an area level with basic functionalities to manage multiple clients and their case details . It reduces the workload of both advocate and client.

3. Specify the Viewers/Public which is to be involved in the System?

   Clients, Advocates.
